To whom it may concern

Kamoy Engineering

Kamoy Engineering has been acting as a nominated sub-contractor to Medserv Limited and its customers for the past two years.

Medserv clients which have used and have been satisfied with the quality, reliability and timely completion of works include Saipem, Sonsub, Technip, Eni Oil, FMC and of course Medserv. Most of the works undertaken involved fabrication and welding of structural elements required for mobilization/demobilization and modifications of vessel decks used for offshore work by the oil industry. Various grades and types of steel and aluminium were used. All works were certified by Lloyds, DNV or Moody's. Work was always done in conformity with all HSE regulations.

In particular in the last six months Kamoy Engineering were the main sub-contractor for the mobilization/demobilization work for the Eni Oil, NC 41 Bouri Field-East Area Development Project undertaken by Technip.

A handwritten signature in blue ink, which appears to be "Godwin A. Borg", is written over a circular blue stamp. The stamp contains the text "MEDSERV LTD." around the top edge, "MALTA" at the bottom, and "Port of Marsaxlokk, Birzebbugia" around the inner edge. A star-like logo is in the center of the stamp. A long, thin horizontal line extends from the right side of the signature.

Godwin A. Borg
General Manager
